SOFTWARE TESTER | VNLASHIN@GMAIL.COM | 063-868-22-31

## OBJECTIVE

I am seeking an engaging role as a test engineer where I can realize my potential and grow professionally.

## ABOUT ME

I have approximately 4 years of testing experience, including both manual and automation testing.

Available for Contracting as an Individual Entrepreneur.

I am a responsible and flexible test engineer who can work both in a team and independently. I am stress-resistant, result-oriented, and hard-working, with a broad outlook and ambitious professional plans.

## SKILLS

- Functional testing
- Integration and system testing
- Regression testing with automated tests
- Exploratory testing
- API testing
- SQL - testing
- Usability testing
- ERP testing
- Acceptance testing
- Writing test artefacts
- Writing and testing user scripts

## EXPERIENCE

### TEST ENGINEER • POLTEQ • JUN 2023 – MAY 2024

Polteq is an outsourcing company in the field of software testing and quality assurance.

- Involved in testing the internal web product and also participated in testing the product at the customer's site.
- Contributed to the internal development process for a new testing tool, including Agile/Scrum testing processes.
- Worked as an Agile tester to ensure quality, collaborating with the development and testing team.
- Successfully contributed to the sprint development process.
- Tested the main functionality of the application.
- Wrote automated tests for UI regression testing using Selenium.
- Participated in Scrum activities (sprints, meetings, backlog grooming, sprint planning, story points, etc.).
- Wrote bug reports and recommendations for product improvement.
- Co-authored a review and user manual for the application functionality.

*Participation in an External Project as a Backend Tester:*

- Worked with Swagger documentation and REST API.
- Wrote test cases for API testing.
- Used Postman for API testing and implemented automation using scripts.
- Wrote testing reports.

## TOOLS

- Robot Framework
- Selenium + PyTest
- Playwright
- Postman and SoapUI
- MySQL
- Jira
- Trello
- Confluence
- GitHub
- Figma
- XMind
- etc.
